Step 2: Create a Scrum Project

Create a Software project using the Scrum template. Give the project a name such as 'My Software Team'.

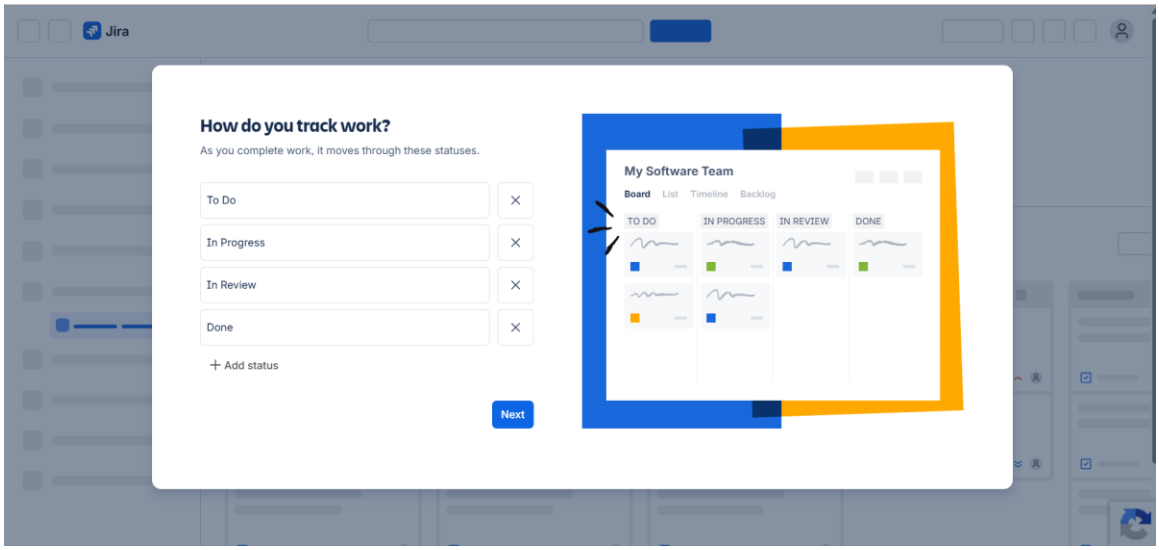

Step 3: Select Work Types

Select Story and Task as work types. Stories represent user requirements.

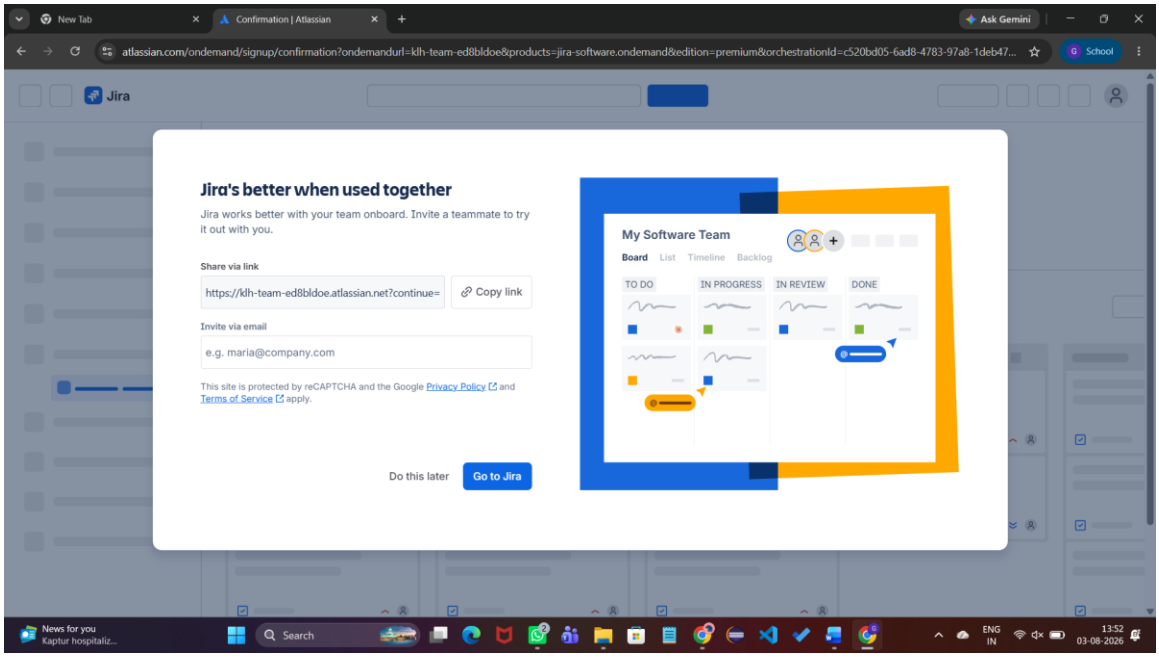

Step 4: Configure Workflow

Keep the default workflow: To Do → In Progress → In Review → Done.

Step 5: Skip Team Invitation

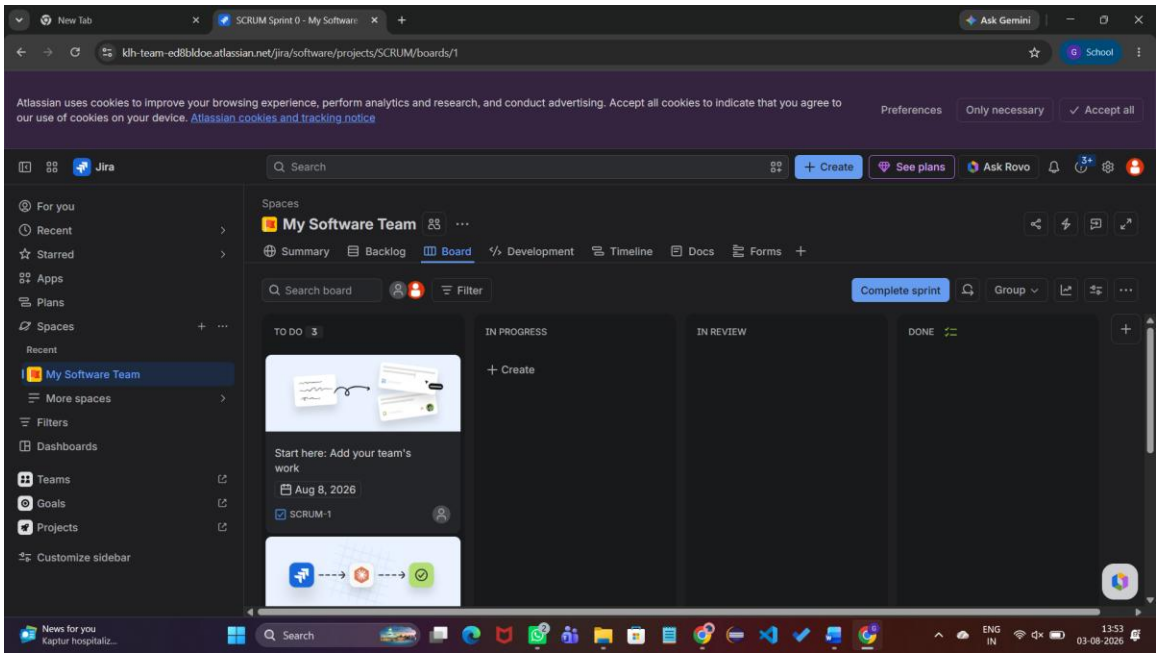

Skip inviting teammates and proceed to Jira.

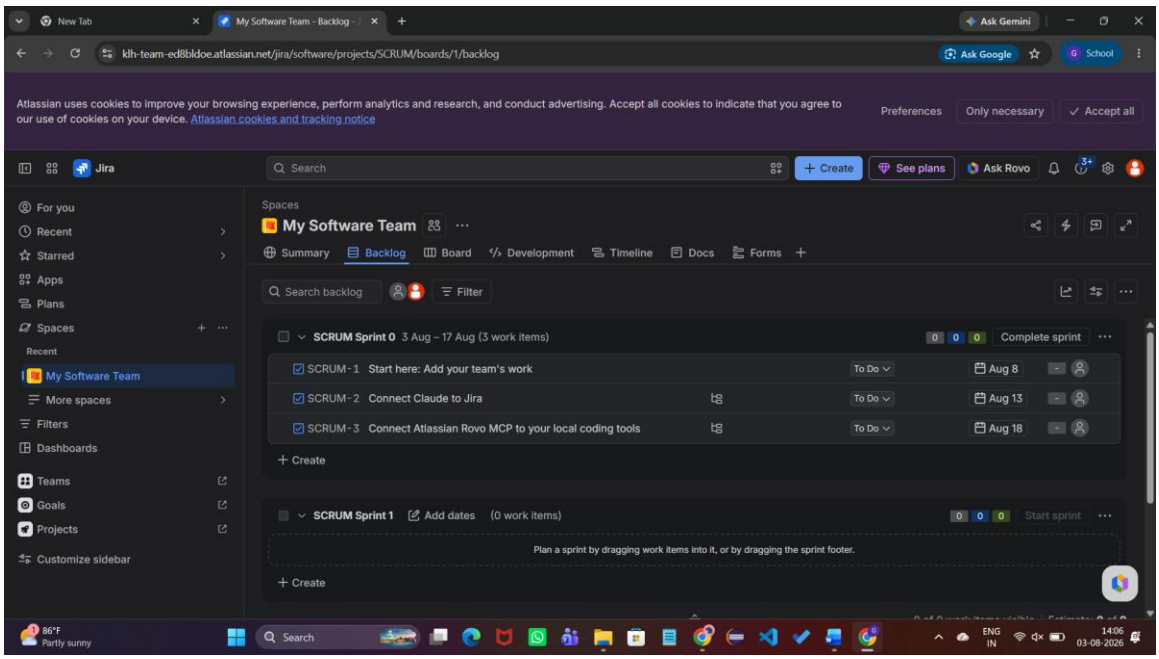

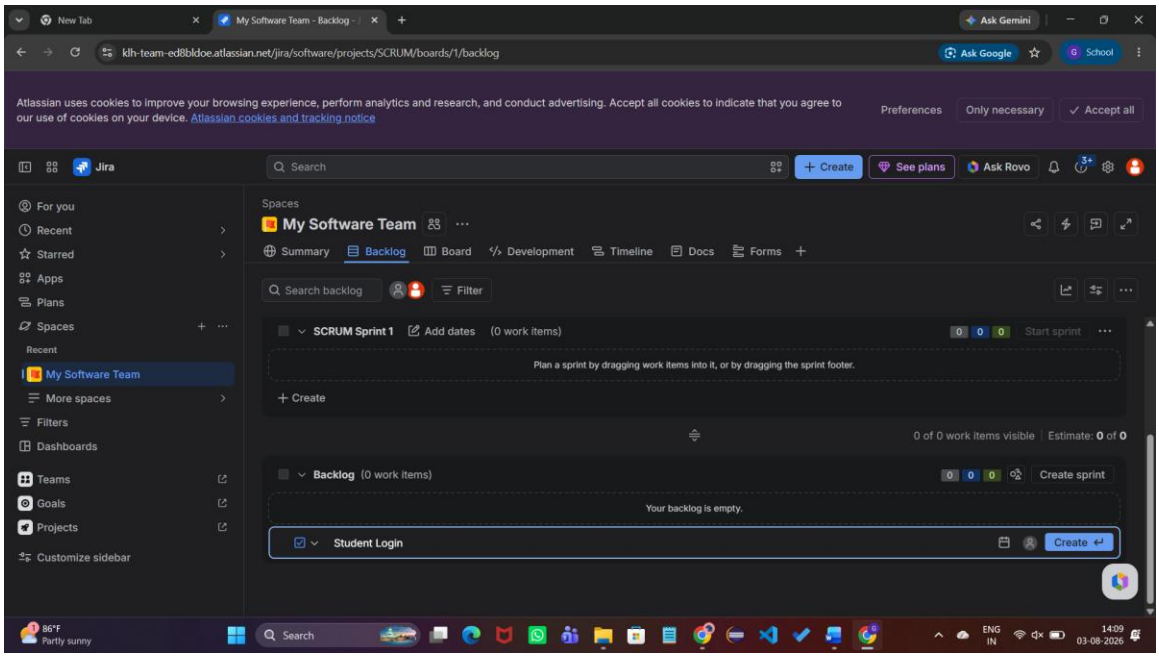

Step 6: Create User Stories

Create five stories:

- Student Login
- Course Registration
- View Attendance
- Faculty Enter Marks
- View Results

Step 7: Assign Story Points

Assign story points using Fibonacci estimates:
Student Login–3
Course Registration–5
View Attendance–2
Faculty Enter Marks–5
View Results–3

After clicking "Go to Jira"

You should see your project dashboard.

Go to Backlog

From the left navigation menu, click **Backlog**.

Create User Stories

Click **Create** (top menu or in the backlog).

Story 1

Summary*

```
Student Login
```

Description

```
As a Astudent,
I want to log in securely,
So that I can access my academic information.
```

Status

- To Do (leave as it is)

Story Point Estimate

3

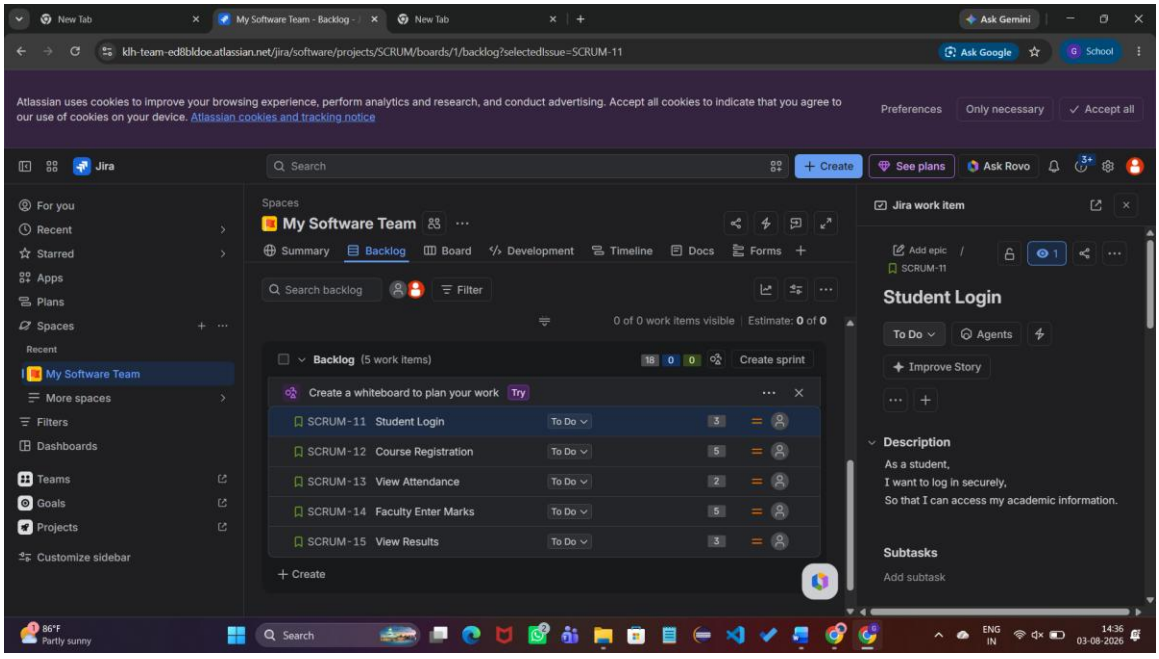

Priority

- Medium (leave as default)

Reporter

- Leave as default

Click **Create**.

Create the remaining four stories

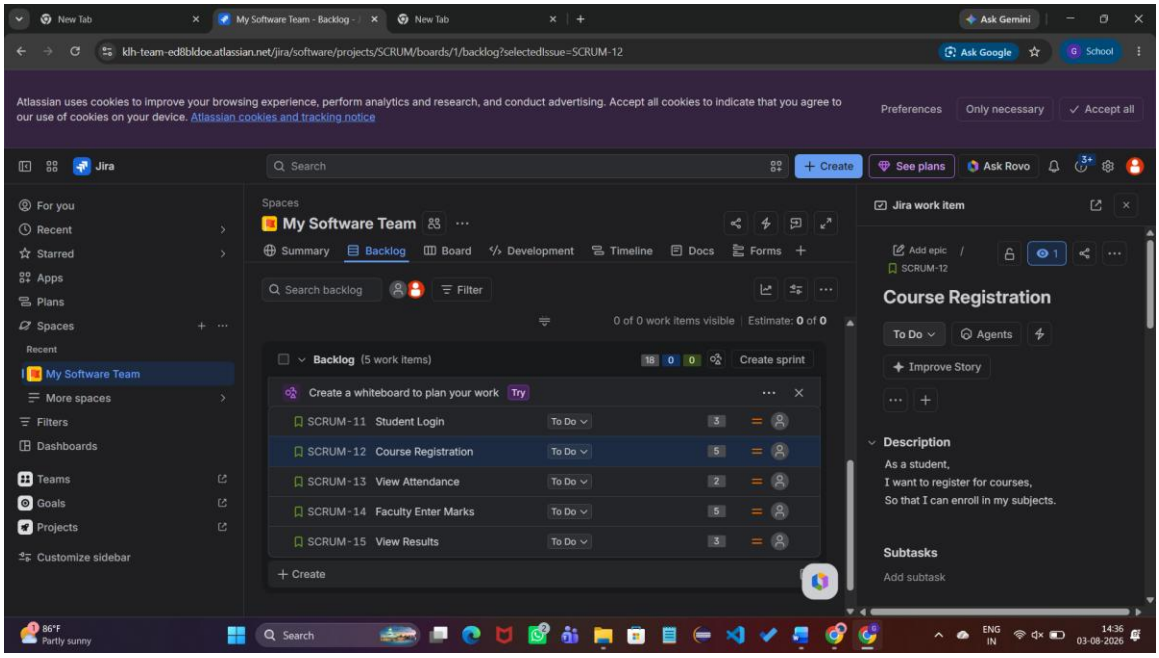

Story 2

Summary: Course Registration

Description:

```
As a student,
I want to register for courses,
So that I can enroll in my subjects.
```

Story Points: 5

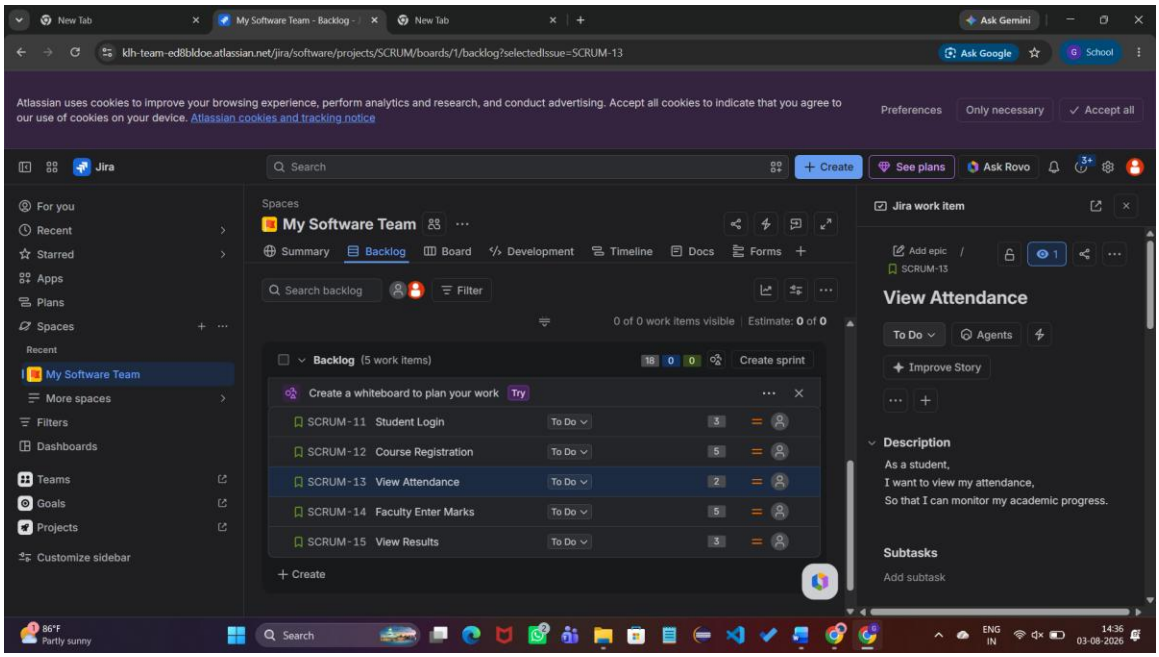

Story 3

Summary: View Attendance

Description:

```
As a student,
I want to view my attendance,
So that I can monitor my academic progress.
```

Story Points: 2

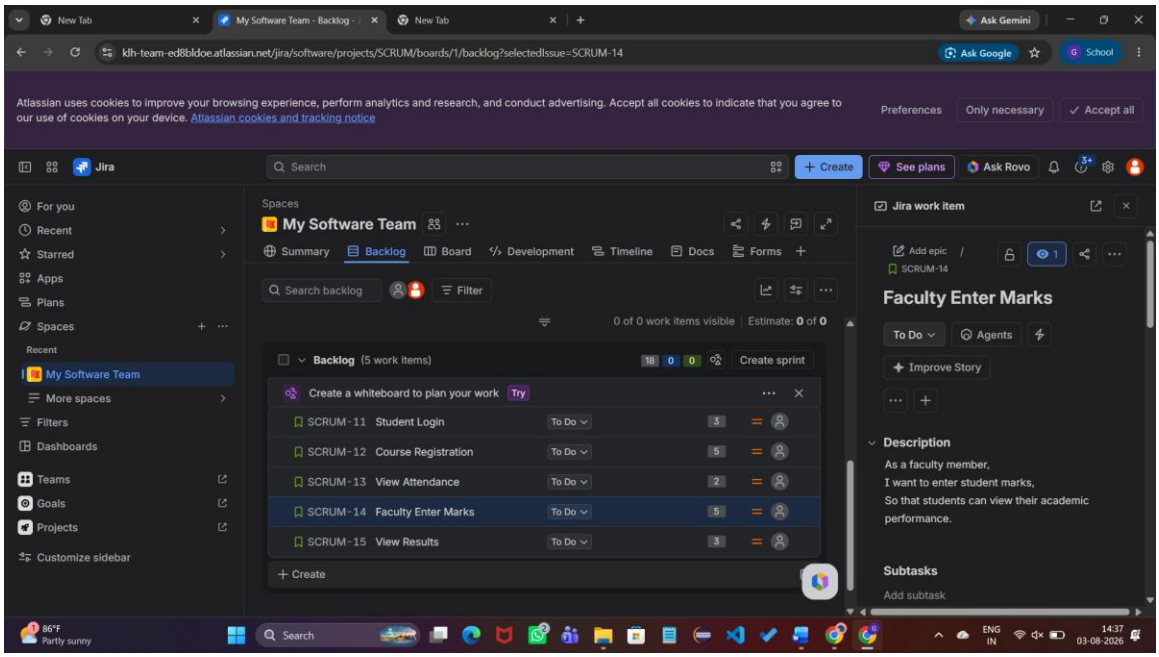

Story 4

Summary: Faculty Enter Marks

Description:

```
As a faculty member,
I want to enter student marks,
So that students can view their academic performance.
```

Story Points: 5

Story 5

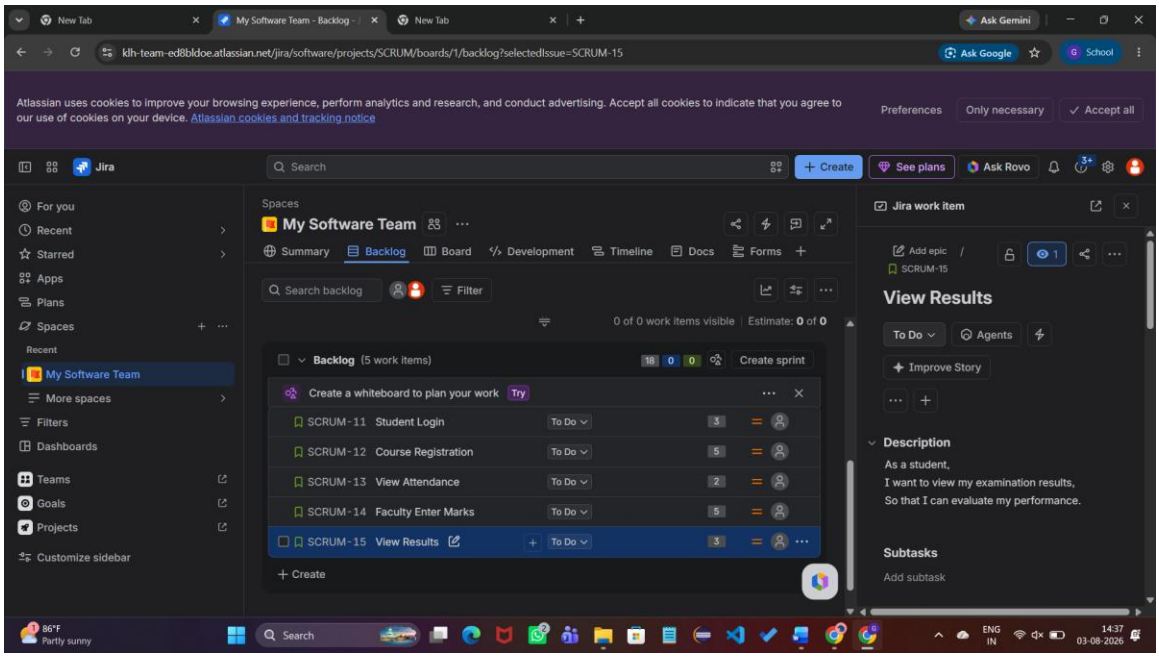

Summary: View Results

Description:

```
As a student,
I want to view my examination results,
So that I can evaluate my performance.
```

Story Points: 3

Click **Create**.

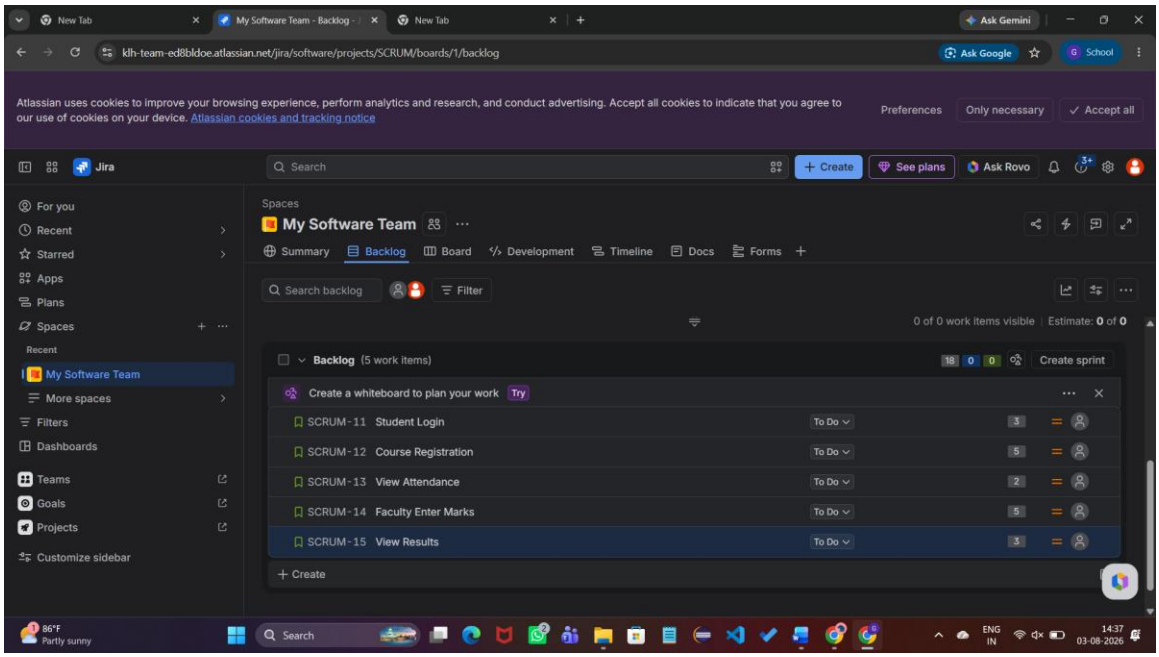

Repeat for these stories:

Summary	Story Points
Student Login	3
Course Registration	5
View Attendance	2
Faculty Enter Marks	5
View Results	3

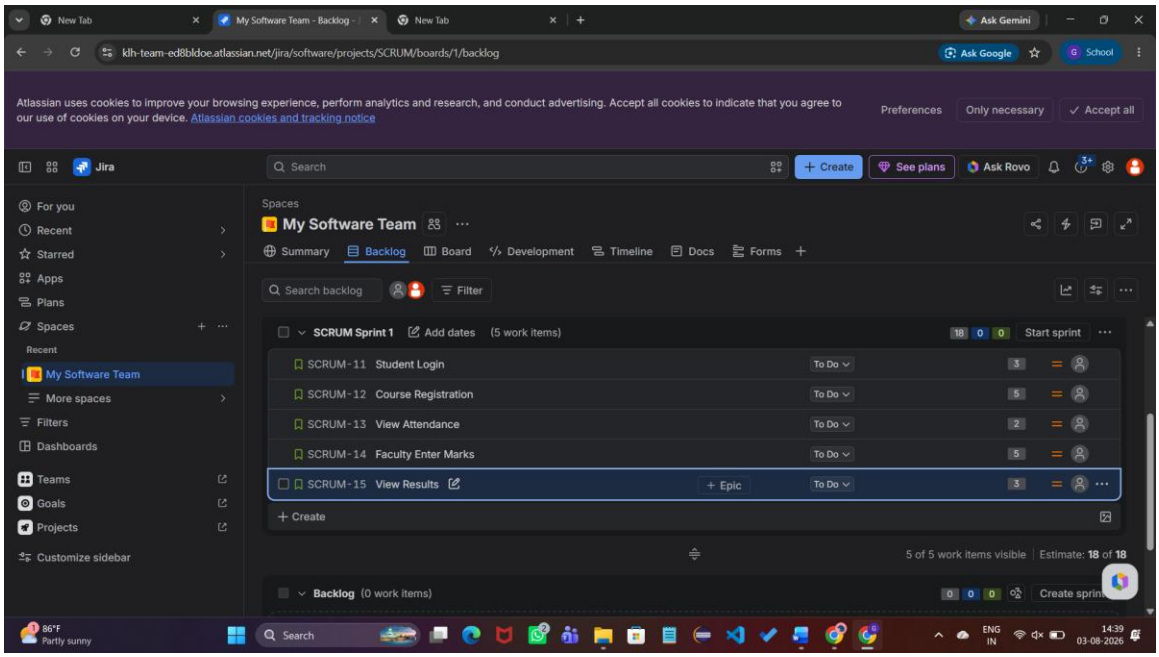

Step 3: Assign Story Points

Open each story and set the corresponding Story Points.

Step 4: Create Sprint

- Click **Create Sprint**
- Drag all five stories into **Sprint 1**
- Click **Start Sprint#**

Step 8: Verify Product Backlog

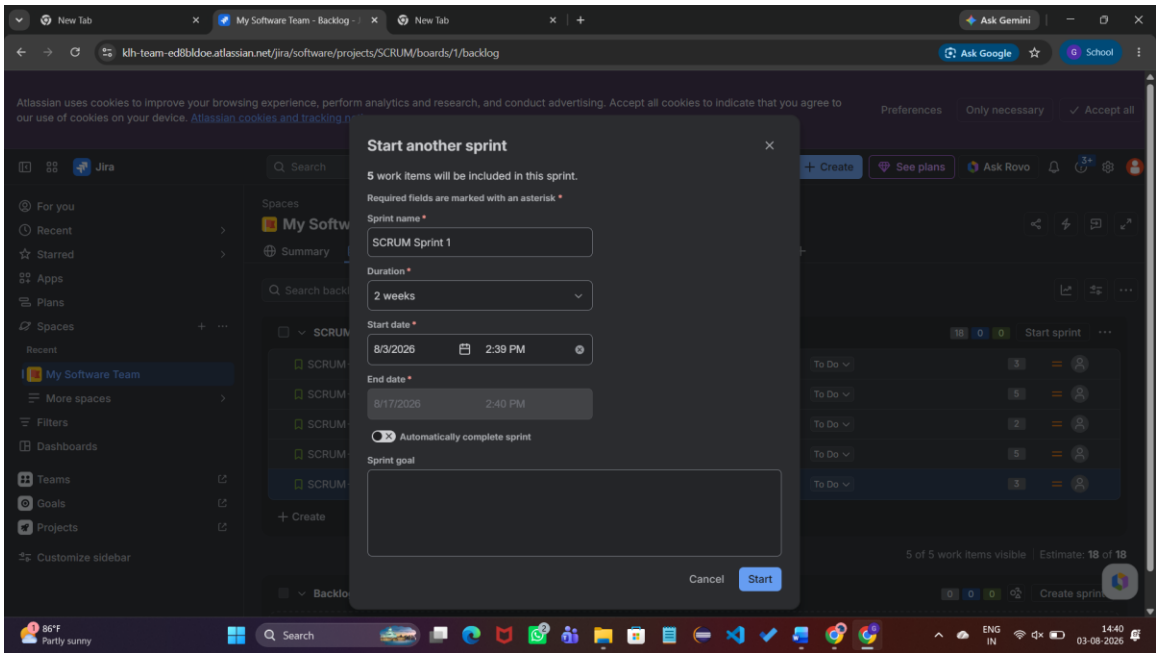

Ensure all five stories appear in the backlog.

Step 9: Create Sprint

Create SCRUM Sprint 1 and move all stories into the sprint.
Sprint Goal: Implement student login, course registration, attendance viewing, faculty marks entry, and result viewing.

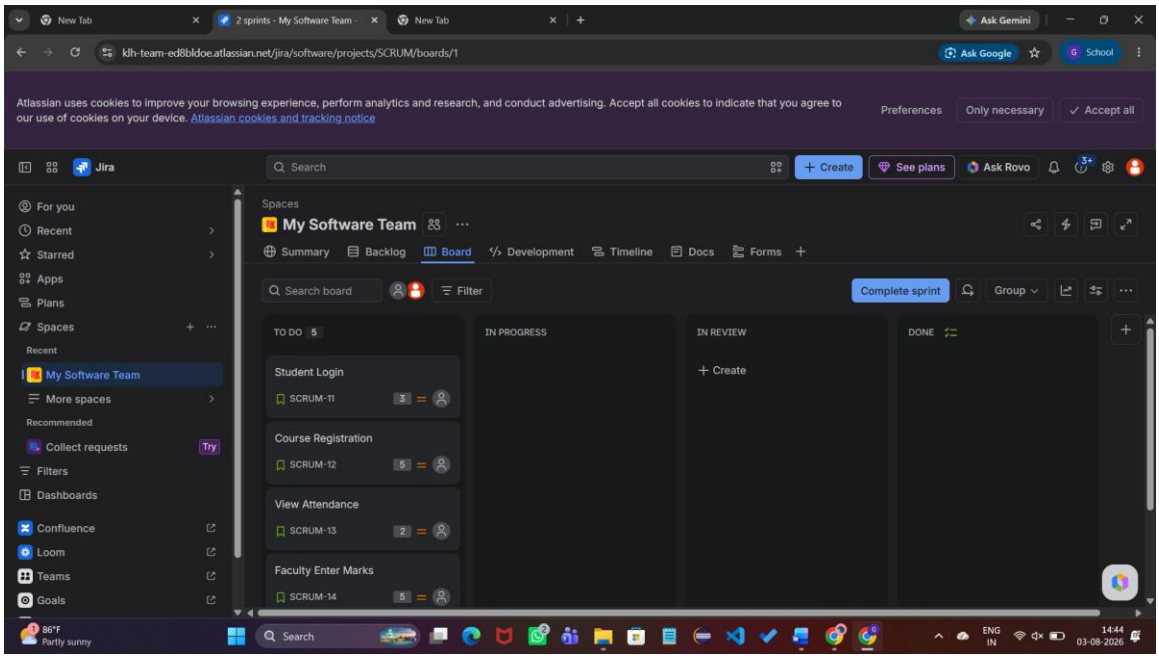

Step 10: Start Sprint

Start Sprint 1 with the default duration.

Step 11: Scrum Board

Verify that all five stories are displayed in the To Do column on the Scrum Board.

Result

Successfully created a Jira Scrum project, defined five user stories, assigned story points, created Sprint 1, and managed the stories using the Scrum Board.
